

Morgan County Partnership for Water Quality  
180 S. Main St. Suite 010  
Martinsville, Indiana 46151

September 25, 2010 will mark the second annual Morgan County Partnership for Water Quality White River Cleanup. Last year we pulled approximately 2.5 tons of debris and 100 tires from the White River in the Morgan County area.

Although our first year was great, we want to make 2010 even better. We're looking for more volunteers and more sponsors.

If you would like to help in sponsoring this event, please fill out the form below. All sponsors contributing \$100 or more will have their name placed on the event T-shirt and will receive a free shirt. We also need volunteers to help with the river cleanup event. Come and join us at 8:30 a.m. on Saturday September 25<sup>th</sup>. (Contact Bill Dials for registration information.)

Thank you for your support.
