February 16th, 2011**

WELCOME

CONTRACTORS, BUILDERS, DEVELOPERS & PROPERTY MANAGERS!

Contractors are required to provide trained individuals for erosion and sediment control - Get Trained.

Developers are required to address post-construction water quality - Learn how.

MS4 personnel responsible for plan review, inspection, and enforcement need to attend annual training. This workshop will satisfy Rule 13 requirements.

Are you tired of the average SWPPP workshop?

Join us for the 2011 *Keep It Clean* Workshop! Every year we work to bring you new topics and speakers. This year's workshop will give you a chance to learn about new products, interact directly with state and local regulators in an open format, pick up some good 'on-site materials', and learn from projects gone wrong!

Professional credits available.

Lunch and snacks will be provided for all participants and speakers.

Don't miss this great training and networking opportunity!

To preview a full draft workshop agenda, additional event information, and link to this brochure visit www.uwrwa.org.

WORKSHOP TOPICS

SESSIONS ARE BEING DESIGNED TO BE INTERACTIVE OFFERING YOU MANY OPPORTUNITIES TO LEARN FROM YOUR PEERS AND ASK QUESTIONS!

- ◆ Onsite SWPPP - how to implement, how/when to amend, self monitoring, role of various specifications and materials, and enforcement landmines
- ◆ Erosion and Sediment Control Field Guide
- ◆ Understanding the Products - material limits, maintenance and installation techniques, new practices and technologies, and much more
- ◆ Tips for working around waterways
- ◆ Onsite Pollution Prevention
- ◆ Lessons learned from failures
- ◆ Q&A with IDEM Storm Water Staff and MS4s officials
- ◆ Vendor demonstrations
